

### Model : SYNC-X5-C828

#### Product Specification:

Model	SYNC-X5-C828			
Capacity	3kg	6kg	15kg	30kg
Division	1g	2g	5g	10g
Application	Counting			
Housing	ABS Material			
Pan	Stainless Steel Material			
Pan Size	280 mm x 210 mm			
Outer Size	300mm x 260mm x 120mm			
Net Weight	3.9kg			
Accuracy	Division Value of 1/30,000 F. S			
Display Mode	LCD Display with Backlighting			
Overweight	0.3% of Maximum Weighing Capacity			
Power Supply	AC 220V (-50% ~ 10%), 50Hz			
	DC with Rechargeable Battery 6V4.5AH			
Operating Temperature	0°C ~ 40°C			
Humidity	0% ~ 80% RH			

#### Preparation Before Use:

- Place the scale on a stable workbench, adjust the scale feet to make the scale in a stable state
- Use independent power sockets to avoid interference from other electrical appliances
- It is normal for digital drift to occur occasionally at start-up. Press [Zero] to reset it to zero
- To ensure the accuracy of counting, please place the item in the centre of the weighing pan
- In the first use or when the ambient temperature changes (<15°C), the scale should be calibrated

#### Product Features:

- Type of multifunctional weighing instrument
- Has the advantages of sensitivity, complete functions, simple operation and convenient maintenance
- Adopting advanced single-chip microprocessor, high-precision sensor, high-precision analogue-to-digital converter, stable and reliable performance and durable
- With automatic sleep energy saving, low voltage buzzer alarm, DC battery automatic charging, weighing, counting and other functions
- Can be widely used in factories, commercial and other industries, as a weight counting tool
- Consists of tear, zero, counting, clear function
